**Examiner's Statement of Reasons for Allowance**

5. As Applicants pointed out in the Remarks, the prior art of record (Spencer, DaSilva, and Charisius) do not disclose and/or fairly suggest at least claimed limitations recited in such manners in independent claim 1 *"...a software program containing at least one data structure with one or more contents, wherein the software program is a server page application running on one or more processor that allows for automatically generating one or more servlets in machine generated code in a programming language, wherein the machine generated code contains one or more underlying physical data structures that are used to represent the one or more contents of the at least one data structure, and wherein the machine generated code allows for further compilation into binary code before execution; at least one abstract view capable of displaying and/or editing the one or more contents of the at least one data structure, based on the one or more underlying physical data structures used to represent the one or more contents and at least one filter capable of extracting and formatting the one or more contents from the one or more underlying physical data structures and defining a displaying and/or editing property of the at least one abstract view, the at least one filter is used to extract data from and manipulate one or more contents in a buffer used to transmit and receive streaming data, wherein the at least one filter allows a user to view the at least one data structure in a data stream relative to one or more tag library associated with the server page application using intermediate data created by the one or more tag library, wherein the intermediate data created by the one or more tag library is not sent back to the data stream."* and similarly recited in such manners in other independent claims 13, 23, 33, and 35 (Remarks, pp. 11-12).

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.
